1. Attached as Annex A is a tabulation of research missions suggested for the 1954 Research Plan by the individual East German universities and the plans for monetary allocations to be spent on research orders. The tabulation represents the status as of early October 1953 and breaks down the proposed monetary allocations according to universities and subjects involved.
2. Annex B represents the status of the same Plan as of mid-October 1953 and reflects several minor changes. However, this summary lists only the number of research missions suggested by the universities and the proposed monetary allocations without any breakdown according to subjects.
3. The first supplement to the 1954 Research Plan of the State Secretariat for Higher Education was approved in mid-October 1953. This Plan listed a total of 96 topics and stated that a total of 1,012,000 DM would be spent on the research work.

Comment:

Reported in thousands of DM. As quoted by the DDR in 1953, 1,000 DM equals approximately US\$ 450.00 ( one DM equals 1.8 rubles). However, this is a drastically inflated value.
